EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

In claim 1: line 11 of the claim, "has" has been replaced with – have --.

In claim 4: line 16 of the claim, "has" has been replaced with – have --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The present case (Yamamoto et al) and U.S. Pat. No. 6,741,387 B2 (Shigehiro et al) have common Assignee, and some common inventors. The former was filed on February 25, 2002, and the latter, on August 20, 2002 (but already patented on May 25, 2004). The invention of claim 1 of the present case and that of claim 1 of the patent are related to each other as combination and subcombination. However, the specific limitation as to the surface coarseness of at least one of the first and second substrates recited in claim 1 of the patent is left out from the present claim 1. This difference signifies that the patentability of one invention does not depend on the patentability of the other. Therefore, the issue of obviousness-type double patenting cannot be established.

Art Unit: ***

On the other hand, vis-à-vis other art cited, the present invention distinguishes thereover by its limitation as to the shape factors defined by the formula given in independent claims 1 and 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
